Culture to Culture Foundation

THE CULTURE TO CULTURE FOUNDATION

The Culture to Culture Foundation was founded in 2001 to promote peace and harmony while fostering a deeper understanding and appreciation for the great diversity in today's global community.

We are a nonprofit, community-based organization dedicated to promoting mental health and emotional wellness within the San Francisco Bay Area's growing Asian-American community. Culture to Culture has worked to reduce the pending mental-health crisis among the area's Asian-American population of over 300,000. Through our various programs, projects, and events, we reach out and bring the community closer together.

Each nominee here today has been presented because of their outstanding community service. And while the Awards Committee has selected several of the nominees for special recognition, it is very important to remember that the purpose of today's event is to recognize all of our nominees and to highlight the work that they are doing in our community.

**WE SALUTE ALL OF THE NOMINEES
