## Stanford CHIPAO:

*Improving  
Understanding &  
Communication  
between  
Immigrant Parents  
and their  
Americanized Teens  
& Pre-teens*

**Saturday, May 11, 2019**

**Dougherty Valley High School Commons • 10am - 1pm**  
**(Free event • Refreshment will be served after program)**

For most parents, we sometimes have difficulty understanding or communicating with our high school or middle school child. For parents who didn't grow up in the U.S., the communication challenges are even greater and can bring on family conflicts.

Please join us in a free, insightful and entertaining workshop to understand how parents can better communicate with their Americanized teens and pre-teens.

San Ramon Valley Council of PTAs and Culture to Culture Foundation have partnered together to bring the Stanford CHIPAO program to our parent community to help foster familial understanding and communications. Stanford faculty will use vignette/role playing to describe issues in various areas, then will open to a forum for discussion, questions and answers.
